

# MultiVue: Healthcare Solutions

## Why VisionWare

VisionWare is an industry leading provider of Enterprise Master Person Index (EMPI) for public and private healthcare organizations around the world. MultiVue enables the creation, management, and interoperability of trusted patient and provider information securely across the enterprise to data systems requesting real-time validated data—to improve decision making at the point-of-care. VisionWare's award winning product MultiVue is currently embedded within existing customer applications in various industry environments within the United States, Canada, Europe, and Africa.

Ranks VisionWare No. 1 for Customer Satisfaction and at the top of their technology list for MDM vendors.

- ▶ The highly sophisticated matching process detects duplicate records and automatically reconciles them based on user-defined rules or the discrepancies are flagged for manual review.
- ▶ Interoperability through a SOA (Services Oriented Architecture) for seamless integration with internal and external applications. Intuitive screens guide data stewards in resolving data quality conflicts.
- ▶ Imbedded support of IHE standards based system communication protocols such as: HL7 PIX/PDQ, PAM and XDS.
- ▶ Strict application security controls limit access to unauthorized users and maintain an audit trail, enabling compliance with HIPAA and other privacy regulations.

- ▶ **Proven Scale & Performance:** Benchmarked to support well over 400 million person records with sub-second response times for demographic and registration searches; matching in excess of 200 transactions per second.
- ▶ **Speed & Ease of Implementation:** MultiVue is deployed in weeks and not months as stated by most vendors.
- ▶ **Experience:** Over 18 years of identity and master data management experience with focus on the public and private healthcare market segments.
- ▶ **Lower TCO:** Flexible data model structured to accommodate a single license for both patient and provider registries.
- ▶ **Nimble, Responsive:** At VisionWare, we understand how to help you address your near-term, tactical requirements while growing with you to address your needs with dynamic healthcare customers.

## Current IHE Accreditation
